Motion by JH and seconded by MR. Vote 3-0 in favor

Mr. Nordahl reviewed recent issues before Board of Assessors including: (1.) the estimate of new growth based on cost to build at Sysco which led to overly high estimate of revenues and (2.) further decreased revenue due to recently granted and pending abatements. Mr. Nordahl also discussed his review of qualifications of the firm hired to do the re-evaluation and reported that he found them eminently qualified. Mr. Nordahl also listed recent positive efforts and developments in assessor's office. Further discussion of these topics ensued.
