

Hate Ticks?

Don't just sit around doing nothing!

Stand up to ticks and tick-borne disease!

With the right tools...

Tick-borne diseases are preventable!

- Ticks carry many diseases that can **seriously** impact our lives and health.
- Tick-borne disease incidence rates in Plymouth county are **dangerously** high!

BUT! There are **several easy ways** that we can protect ourselves! Schedule tick talk with Blake Dinius, entomologist educator. Services are sponsored through Plymouth county and are **free** to the county's residents.

- Learn the **facts** about ticks and prevention methods.
- Provide the **strongest** defense against ticks for yourself and your family.
- Go back to **enjoying** life in New England!
